QUADRO

- orange or white lighting depending on the color of the shade
- built-in circuit-breaker
- horizontal and vertical mounting
- built-in dual band antenna to improve radio range

The QUADRO lamp is a safety element in gate automation. The energy-saving LED light source used in the lamp guarantees many years of maintenance-free operation. A wide range of power supply from 24V to 230V, a built-in circuit breaker, and the possibility of mounting on the horizontal and vertical plane allow the use of QUADRO lamps in any type of automation. The modern design of the lamp as well as the possibility to choose the color version of the housing will make each fence unique and original.

QUADRO

signal lamp

Parameters

power supply: from 24V AC/DC to 230VAC
power: max 5W
operating temperature: -20°C / +55°C
lampshade: orange or transparent, PMMA
technology: LED
vitality: 50 000h
usage: signal lighting
mounting: on a horizontal plane
or vertically using an angle bracket
ingress protection: IP-54
operating mode: continuous or impulse 0.5s
shock and vibration resistance: high
weight: 210g
antenna: Built-in, dual band: 433MHz, 868MHz
