OF GATE AUTOMATION**

POLISH
PRODUCT

- functionality of 1000 3-button remote controls
- confirmation of activation of the receiver output
- compatible with devices of the CSS system
- seven-segment LCD display

Parameters

frequency:	868.30MHz/868,45MHz
system element:	CSS
number of individual remotes:	1000
type of communication:	bidirectional
battery:	3,6V R6
battery performance:	1,2 km
maximum range:	3 years with 100 cycles a day
EIRP:	10mW
modulation:	chirp spread spectrum
dimensions:	115x72x38mm
degree of tightness:	IP67
working temperature:	from -20°C to +55°C
